Meta Description: Come to Weimaraner Point Stone Quarries and see what we can do for your landscape.

Weimaraner Point Stone Quarries is proud to bring Philadelphia the finest natural stone products available anywhere. Whether you need stone for your families dream home or an entire construction project, we have the high-quality natural stone and stone veneers that you need. Our widely varied and large inventory of natural stone veneers, wall stone, and natural patio stone pavers is sure to add just the right touch to your project.

Demand for natural stone and stone veneer products has grown exponentially over the past few years and Weimaraner Stone is committed to having the type, color, and size that you need. Our stone products are expertly quarried to bring out the natural beauty of the stone in the most effective and economical way. After cutting they are polished or finished to enhance not only that natural beauty, but the space where they are installed.

Weimaraner is on a mission to provide you the stone and stone veneers for your projects, whether they be a walkway in a small garden or the hardscape for an entire business campus. Our experienced staff is waiting to assist you with product selection, accessories and supplies, or tips and tricks. Whether you are a homeowner, an architect, or a contractor, we are in business to serve you in any way we can.

We know that the majority of our business comes from customer referrals and repeat customers; our mission is to earn that business every time you visit. Our goal is to deliver superior quality products that lend value and beauty to your home or business space. If, for any reason at all, you don't believe we've delivered as promised, we promise to work until we make it right. See the difference Weimaraner Stone can make in your space.

ABOUT PAGE

The Weimaraner staff is carefully trained in all aspects of natural stone and stone veneer products. We will make sure that the products you choose will offer the best in quality and affordability. After all, you’ll be living with it for a very long time to come!

SERVICE PAGE 1

“Natural Stone Veneers”

Meta Description: Contact Weimaraner Point Stone for the widest selection of natural stone veneers.

Weimaraner Point Stone Quarries delivers a huge variety of natural stone veneers to the Philadelphia area. Offering thickness from as little as 3 ½” to as much as 6”, natural stone veneers are natural stones that have been cut to a size that is more manageable for the human condition.

There are many reasons to choose natural stone veneers over full stone construction for your landscape and hardscape. Many of the advantages of stone veneer over full stone slabs are both economic and environmental:

- **Green Construction**—Because stone veneers are thinner, we get more applications from a single stone. This limits our production costs, which we pass

on to our customers.

- **Variety of Applications**—Our natural stone veneers can be used to finish nearly any interior or exterior surface, including fireplaces, facades, trims and borders, backsplashes and showers, cellars, doors, and many more.
- **Use Less Stone**—The use of veneers made from natural stone ultimately means we cut less stone from the mountain. Veneer is more easily managed than full stone, weighs less, and is easier and cheaper to transport. All of this means you get a higher-quality product for less money than you would spend on full stone applications.
- **Easier Installation**—Natural stone veneers are manufactured to be easily transported and installed by human beings, which naturally makes it simpler to work with than a full stone used for the same application.
- **Cheaper**—Since natural stone veneers weigh less, cost less to transport, and contain less stone they are a far cheaper option than a full stone application.

Our stone veneer product require far less structural support than a full stone application of the same size. Less structure saves you money on nearly every aspect of your project, from materials to labor. Let us show you a variety of natural stone veneers; one is sure to be perfect for your needs.

SERVICE PAGE 2 “Wall Stone”

Meta Description: Learn more about the huge variety of natural wall stone offered by Weimaraner Point.

Weimaraner Point Stone Quarries offers Philadelphia the widest variety of natural wall stone in many colors, textures, and sizes. Wall stone is often used to cover and beautify ugly concrete surfaces like foundations, garages, basements, chimneys, and retaining walls.

Though the initial expense and craftsmanship required to incorporate wall stone into an interior or landscape design may seem immense, the rewards in style, elegance, and durability will far outlast the initial costs. Because of the flexibility they lend to design, oftentimes wall stone can be the easiest solution to a difficult problem such as building around a tree. Some of the most common applications of wall stone includes:

- **Fireplaces and Chimneys**—Wall stones lend a sense of old-worldliness whenever they are used to create a fireplace and chimney stack that are the focal point of a room. They bring color and texture elements to enhance the design, as well as an air of strength and protection.
- **Retaining and Landscaping Walls**—Weimaraner has all the stone you need for

creating simple retaining walls around the house or landscaping walls for your business. Trust our experienced staff to guide you to just the right product for your needs.

- **Foundations and Basements**—Foundation and basement walls are generally plain, boring, poured concrete. Who wants to look at that? When you or your contractor finishes your foundation and basement walls with stone, you'll be the talk of the neighborhood.

Whether you are looking for colonial or fieldstone, you'll find we carry more high-quality tumble cut, pattern cut, and irregular patterns than you can imagine. Color, pattern, and texture are just the beginning when it comes to our inventory of wall stone, which is unmatched in the county and sure to give your space the casual or elegant touch it deserves.

SERVICE PAGE 3 “Natural Patio Stone Pavers”

Meta Description: Enjoy the beauty of our natural patio stone pavers in your walkway, patio, or pool.

Weimaraner Point Stone Quarries natural patio stone pavers grace walkways and patios all over the Philadelphia area. While it may seem that installing natural patio stone pavers is expensive and labor intensive, you should carefully consider the advantages of stone over concrete before making a decision.

- **Variety**—Unlike poured concrete, our natural patio paver stones are available in a wide variety of types, including Granite, Sandstone, and Travertine. Granite is one of the most durable stones on the planet. Sandstone is frequently used in desert designs and Travertine lends an air of classical elegance to any space that receives it.
- **Ease of Installation**—Our pavers are actually easier to install because they are all a uniform thickness. Once they are properly laid in a bed of gravel and sand there is much less chance that they will move or shift over time, preserving both the beauty and quality of your patio or pool deck.
- **Colors and Size**—Our patio stone pavers come in an inexhaustible array of colors and sizes, making certain that we can cover your ground in a style that is sure to please.
- **Textures**— Weimaraner stone pavers can be had in varied textures, including sandblasted, polished, honed, tumbled, and antiqued. One is sure to set off your decor stunningly.
- **Maintenance**—Once professionally installed, your natural stone patio and walkway pavers will require no maintenance at all. They are specifically created

to a uniform thickness so there will be no buckling or sinking in your application.

We have the quality, quantity, and variety of natural patio stone pavers that your project demands. Our friendly staff is willing and waiting to help you with all of your paver needs. Drop by and pick up your perfect pavers before the neighbors get them!
